

# TECH-NOVA

Compendium of Technical courses

---

An initiative of Haryana Technical Education Society

**DEPARTMENT OF TECHNICAL EDUCATION, HARYANA**  
BAYS 7-12, SECTOR-4, PANCHKULA, HARYANA- 134112

techeduhry.gov.in  
dgte.hry@techeduhry.gov.in  
0172-2583249

## Preface

Technical Education is Valuable link between employment and economic progress of the nation. Many diploma/degree programmes are offered through private and government institutions covering programmes in engineering, technology, management, pharmacy, architecture, among others.

Haryana Government has constituted Haryana State Technical Education Society–HSTES in the Department of Technical Education for implementation of transparent and uniform procedure for admissions to various graduate and diploma courses in different disciplines of Engineering, Technology, Architecture & Planning, Pharmacy etc. in the State.

It has been felt that candidates seeking admission in various courses are not well aware about the Learning Outcomes and Job Opportunities of all the technical courses offered by Department of Technical Education, Haryana. They prefer to pursue education only in certain branches and prefer some branches over others, however, other branches as well have great scope with respect to job opportunities they can provide.

The compendium of courses after class 10th and 12th, is an earnest effort of the Haryana State Technical Education Society, Haryana to facilitate students while scouting for right course choices offered at Technical Universities, Engineering colleges and various polytechnics in the State.

# Technical Education – Chronology of Growth

## About the Department

---

The Department of Technical Education, Haryana looks after the policy planning and implementation, in matters connected with Technical Education falling in the domain of Polytechnics, Engineering Colleges and State Technical Universities. The Department assigns high priority to meet educational needs of deprived sections of society.

It helps develop and promote Technical Education both at Diploma and Degree level Courses, and formulate policies for encouraging quality Technical Education at all levels.

## Introduction

The Department of Technical Education, Haryana looks after the policy planning and implementation, in matters connected with Technical Education falling in the domain of Polytechnics, Engineering Colleges and State Technical Universities. The Department assigns high priority to meet educational needs of deprived sections of society.

It helps develop and promote Technical Education both at Diploma and Degree level Courses, and formulate policies for encouraging quality Technical Education at all levels.

## Vision

To provide quality Technical Education relevant to the need of industry and market, and develop high quality skilled manpower suitable for employment in the 21st Century.

## Mission

Building a high quality skilled manpower suitable for employment in 21st Century.

# Why to choose Technical Education, Haryana

## Academic Reforms

**01**

NEP 2020/NSQF/AICTE compliant has been incorporated in all the technical degree and diploma institutes of Haryana

---

**02**

A stimulating and challenging programmes of study that will be both engaging and memorable for students

---

**03**

There is something to suit each student's preference of study and future progression plans

---

**04**

Free Access of Videos/ Digital contents on [hsbtetutor.org.in](http://hsbtetutor.org.in) website to the diploma students

---

**05**

Refreshed content that is closely aligned with Professional Body, vendor, employer and higher education needs

---

**06**

Provision of E-notes/ Digital Links on Institutes Websites

---

**07**

A qualification designed to meet the needs and expectations of students aspiring to work in an national/ international creative industries environment

# Well Equipped Laboratories

All the institutes are well equipped with State of Art Machinery and Equipment

The essential subject knowledge that students need to progress successfully into further study and the world of work

Quality assurance measures to ensure that all stakeholders (e.g. professional bodies, vendors, universities, businesses, colleges and students) can feel confident in the integrity and value of the qualifications

## Improving Student- Teacher Connection

- Two weeks induction programme for the newly admitted students. Mentor's Scheme implemented to facilitate a close dialogue between teachers (Mentors) and Students (Mentees).

---

## Student Training

- Soft Skills training introduced in all semesters, 4-8 weeks mandatory industry training, value added courses introduced for the final year students
- MoUs with more than 300 organizations for improved learning, training and placements
- Training and placement cells in every institution for facilitating students.
- Job Melas at State and Cluster level organised periodically.

---

## Exam Reforms

- Installation of CCTV cameras in examination centres, Issuance of DMC's and Diploma Certificate with enhanced security features such as QR Code.
- Assessments that consider cognitive skills (what students know) along with affective and applied skills (how they behave and what they can do, respectively).
- A diverse approach to assessment that supports progression thereby accommodating and enhancing different learning styles

## Digital Certificate Depository

- Signed MoU with CDSL (Central Depository Services Ltd.) for utilizing NAD (National Academic Depository) services to upload/ access Digital Certificates of students.
- 

## Industry & Foreign Collaborations

- HSBTE has signed MoU with Maruti Suzuki India Ltd. For training of teachers and tailor made diploma program for their employees. A Global Training education program for faculty has been proposed in collaboration with British Deputy High Commission.
- 

## Community Connection

- SAHYOG Clubs have been established in the polytechnics for rejuvenating the Villages ponds, to raise & preserve ground water level and to create hygienic environment in the village.
- 

## Hostel Facility

- Hostel facility provided in most of the institutions.

# Initiatives taken for Girl Students

- A total of 25% horizontal reservation is provided to the girl students of all technical institutes of Haryana, so that they can be motivated to enrol and excel in the field.
- A large number of people living in remote areas cannot afford the fee of such education, thus causing hindrance in their education. To avoid any such quandary, no tuition fee is charged from girls admitted in Government/ Government Aided Polytechnics of Haryana.
- To enhance and encourage the enrolment of Girl Students, the proposal for exclusive transport facilities to the girl students of Government/ Government Aided Polytechnics/ Government Engineering Colleges from institution to Native Place for all Districts of Haryana
- Free Bus Pass transport facility to all girl students.
- To provide encouragement and support to Girl Child to pursue technical education “Pragati Scholarship” has been launched by the MHRD from the year 2014-15 and implemented by All India Council for Technical Education (AICTE). The selected girl students will receive INR 50,000 for every year of study as a lump sum amount.

To promote “Beti Bachao Beti Padhao” in all sectors of education, the Department of Technical Education has launched various initiatives in favour of girl students. Education for girls has been made accessible and convenient, so that girls receive equal education opportunities.

# Schemes for Students

## Post Matric Scholarship Scheme (PMSS)

The Scheduled Caste Students who have a family income of Rs. 2.5 Lacs or less, are assisted by reimbursing tuition fee, development fund and student fund as fixed by State Fee Committee including the Examination Fee. These students separately receive a monthly and maintenance allowance, as well.

---

## Schedule Caste Sub Plan Scheme (SCSP)

The Schedule Caste students who have a family income ranging between Rs. 2.5 Lacs and Rs. 3.50 Lacs, are assisted by reimbursing tuition fee, to those who are pursuing Diploma Courses, UG Courses and PG Courses.

---

## State Transport Facility/ Train Pass

All the scheduled caste students studying in Diploma, Undergraduate and Post-graduate technical courses, who travel by public transportation, are issued free passes.

---

## Tuition Fee Waiver Scheme (TFW)

Under Tuition Fee Waiver Scheme of AICTE, seats up to maximum 5 percent of sanctioned intake per course is available in all institutions approved by AICTE. This waiver is applicable to the students whose parents / guardians earn less than Rs. 8 lakhs per annum. These seats shall be supernumerary in nature and will be available to such courses in an Institute where a minimum of 30% of sanctioned seats in the respective courses are filled up.

---

## Economically Weaker Sections (EWS) Quota

Under Economically Weaker Sections (EWSs) reservation of State Government, seats up to maximum 10 percent of the sanctioned intake per course shall be available in all educational institutions other than the minority educational institutions approved by AICTE. These seats shall be supernumerary in nature. (\*Subject to change as per guidelines/ directions of AICTE and State Govt.)

---

## Kashmiri Migrants (KM) Quota

Seats upto maximum 5 percent of sanctioned intake in each branch are reserved for wards of Kashmiri Migrants in all AICTE approved institutions. These seats shall be supernumerary in nature.

# Index

S.No.	Courses
1.	Advance Diploma in Tool & Die making
2.	Agriculture Engineering
3.	Aircraft Maintenance Engineering
4.	Architectural Assistantship
5.	Automobile Engineering
6.	Automation and Robotics
7.	Ceramic Engineering
8.	Chemical Engineering
9.	Chemical Engineering (Pulp & Paper)
10.	Civil Engineering
11.	Computer Engineering
12.	Diploma in Business Management
13.	Diploma in Hotel Management
14.	Electrical Engineering
15.	Electrical & Electronics Engineering
16.	Electrical and Instrumentation Engineering
17.	Electronics & Communication Engineering
18.	Fashion Design
19.	Fashion Designing & Garment Technology
20.	Fashion Technology
21.	Finance Account & Auditing
22.	Food Technology
23.	Information Technology
24.	Instrumentation & Control Engineering
25.	Library & Information Science
26.	Mechanical Engineering
27.	Mechatronics
28.	Medical Electronics
29.	Medical Laboratory Technology
30.	Office Management & Computer Application
31.	Pharmacy
32.	Plastic Technology
33.	Textile Design
34.	Textile Processing
35.	Textile Technology

## Eligibility of Courses under purview of HSTES

S.No.	Course	Eligibility	Basis of Admission (on inter-se-merit of)
1.	Diploma (Engg.)	10th	Merit of Secondary School Examination (Matriculation)
2.	Diploma (Engg.) – Lateral Entry	10+2 / ITI (2 Years)	Merit of percentage of qualifying examination
3.	Diploma (Pharmacy)	10+2 (PCM/PCB)	Merit of percentage of qualifying examination
4.	B. Arch.	10+2 (PCM) or Diploma (Mathematics)	National Aptitude Test in Architecture (NATA) conducted by COA
5.	BE / B. Tech.	10+2 (PCM) with 45% marks	Joint Entrance Examination Mains (JEE) conducted by NTA
6.	BE / B. Tech. (LEET)	Diploma (Engg.)	Merit of percentage of qualifying examination
7.	B.Pharmacy	10+2 PCM/ PCB and English	Online Entrance Test
8.	B.Pharmacy (LEET)	D. Pharmacy	Merit of percentage of qualifying examination

# Advance Diploma in Tool & Die making

## Introduction

In the present scenario of industrialization, particularly in the engineering field, requirement of specialized tools, dies, jigs, fixtures, moulds, gauges, and other precision components are indispensable. Simultaneously demand for Tool makers, Tools & Product Designers, Skilled Manufacturers, Industrial Automation Engineers and Maintenance Engineers is also growing rapidly.

The course emphasizes on practical and theoretical knowledge. It equips the student in tools and designing of tools. They would be able to work without the supervision of an engineer.

After completing the course, students will be able to create tools and use machines efficiently to design and fabricate tools. They will be able to make jigs, moulds, fixtures, gauges and make cutting tools in the manufacturing industries. They have high value in the manufacturing companies and industries. They are machinists and work in a flexible environment. Depending on the type of work they are called as tool maker, mould maker or Tool fitter.

## > Career Opportunities

- Higher employability and acceptance due to alignment of students with industry work culture
- Wide scope of employability in establishing small startups for manufacturing machine parts, tools and dies and their repair and maintenance.

## > Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Manesar, District Gurgaon
2.	Bhagwan Mahaveer Institute of Polytechnic, Village Jagdishpur, District Sonapat
3.	Puran Murti Campus, Kami Road, Sonapat
4.	MSME Technology Centre, Ministry of Micro, Small and Medium Enterprises, Govt. of India, Plot 10-11, Sector 30B, Institutional Building at HSIIDC, IMT Rohtak

# Agriculture Engineering

## Introduction

Agricultural engineering is one of the sub-fields of engineering. It is a fusion of agriculture and technology. India is an agro-based country which explains why the agricultural sector and its allied industries are so high in demand. This demand has led to the development of agricultural engineering courses where students learn about the Indian agricultural system and its encounter with technology.

Agricultural Engineering plays a very important role in increasing production and productivity of agricultural crops, thereby, increasing the income of farmers and contributing to national economy. Also, timeliness of farm operation through efficient agricultural implements and machinery, appropriate land and water management activities, efficient post-harvest technology/ processing and efficient energy utilization are the important areas in which Agricultural Engineering profession has been playing major role.

## > Career Opportunities

- Wide scope to work as semi-skilled employee on wage basis mainly in following agriculture related organizations:
  - Agriculture Machinery Manufacturing
  - Processing Agro Industry
  - Agriculture Implements Manufacturing
- They have good avenues in establishing small startups in the area of Marketing and Sales, manufacturing Units and Repair and Maintenance units etc.

## > Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Sirsa
2.	College of Agriculture Engg. and Technology, Ch. Charan Singh Haryana Agricultural University, Hisar
3.	Deen Bandhu Chhotu Ram University of Science and Technology, Murthal, District Sonipat

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Aircraft Maintenance Engineering

## Introduction

Indian aviation sector is growing at very fast pace leading to high requirement of manpower. The well-being and protection of an aircraft places an essential role in the aviation sector. Aircraft Maintenance Engineering (AME) is one such program which is known for its high scope in the aviation industry. It is related to the maintenance, conduct inspection, repair, and make an upgrade to aircraft before take-off. The job opportunities are mushrooming these days when it comes to AME. **It is a job-oriented program that offers student to build their fascinating career in the aviation sector.**

## › Career Opportunities

- There are a plenty of opportunities that a candidate can grab after completing the Course in Aircraft Maintenance Engineering. However, some of them have been laid down below: -
  - Airlines
  - Maintenance Repair and Overhauls (MRO) industries
  - Aircraft Manufacturing Companies
  - Aircraft Part Manufacturing Companies
  - Aircraft Operation Organizations
  - Aviation Training Centers

## › Institutes

Puran Murti Campus, Kami Road, Sonipat

# Architecture

## Introduction

Architecture means 'art + science'. A Course in Architecture, is a series of classes that study the art and science of building. This includes how buildings are built, designed and planned. It has a wide scope starting from the design of any built environment, structure or object, town planning, urban design, and landscape architecture to furniture and objects.

During the course students have to prepare working drawings of building, to have basic knowledge of important building material like stones, bricks, lime, cement, paints, timber, exterior and interior glass, building hardware, roofing material, additives and admixtures, adhesives and other related areas.

## › Career Opportunities

- The students of Architecture have job opportunities in a number of sectors such as :-
  - Architectural firms, independent Practicing Architects
  - Hospitality sector/ Corporate offices/ Builders/Landscape
  - Architect/ Interior Designer
  - Draughts person in Architectural office ;
  - Public sector- State Architecture Department, State Town and Country Planning Department, Haryana Urban Development Authority.
  - Building Material showrooms with layouts of Kitchen, Toilet etc.

# Architecture

## Institutes

S.No.	Institute Name
1.	Govt. Polytechnic for Women, Faridabad
2.	Govt. Polytechnic for Women, Sirsa
3.	Govt. Polytechnic, Ambala City
4.	Govt. Polytechnic, Sector 26, Panchkula
5.	Deen Bandhu Sir Chhotu Ram Govt. Polytechnic, Sampla, District Rohtak
6.	BPS Mahila Polytechnic, Kanya Gurukul, Khanpur, District Sonapat(Aided)
7.	Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Sonapat
8.	State Institute of Urban Planning and Architecture, SUPVA, Rohtak

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Automobile Engineering

## Introduction

Automobile Engineering is related to designing, testing, and understanding of the parts and working of various parts of the automobile which helps the candidate in getting a job in the automobile industry. In this course, the students gain academic as well as practical knowledge from a professional working in the automobile sector. Students work on automobile engine and perform various activities like dismantling, overhauling and assembling of the engine. It develops the ability to demonstrate the knowledge of engineering and management principles and apply them while doing a project. The study of Automobile engineering is to learn about work, force, mechanics, tools, operations, manufacturing, management, etc.

## › Career Opportunities

Regarded as the evergreen branch, the scope of employment here never dies. Automobile graduates can enter into automobile world, R&D projects, robotics, thermal environment, etc. to get handsome salaries. Automobile engineers can enter both in public and private sectors:

### **Public sector:**

NTPC, NHPC, ONGC, BEL, DRDO, SAIL, GAIL, EIL, UPSC, etc.

### **Private sector:**

Hero, Honda, Escorts, JCB, Maruti, Eicher, standard Tractors, ISGEC, LG, etc.

## › Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Ambala City
2.	Govt. Polytechnic, Dhamlawas, District Rewari
3.	Govt. Polytechnic, Malab, Nuh, District Mewat
4.	Govt. Polytechnic, Manesar, District Gurgaon
5.	Govt. Polytechnic, Sonipat
6.	Vaish Technical Institute, Rohtak(Aided)

# Ceramic Engineering

## Introduction

The course is designed to help students understand the basic of material science, ceramic properties and processes involved in the production of ceramic products. The Ceramic Engineering course finds its implementation in various sectors like construction sites, aerospace, household appliances and decorative items manufacturing, healthcare etc. During the course, a student learns about the designing, construction and development of the ceramic materials. They understand the chemical properties of ceramic material and various stages of the manufacturing process.

## > Career Opportunities

- Ceramic Engineer can make his career in Aerospace, Electronics Industry, Refractory, Glass, Metallurgical Industry, Research Institutes, Tile Industry, Sanitary ware Industry, Cement Industry etc.
- Some of the job profiles of a Ceramics Engineers are:
  - Ceramic Technologist
  - Ceramic Designer
  - Quality control Supervisor/Engineer/Manager
  - Kiln Supervisor/Manager
  - Glass Technologist
  - Technician/ Production supervisor/ Production Engineer/ Production Manager
  - Ceramic ware manufacturing
  - Enamels
  - Kitchen ware
  - Decorative ware
  - Engine components manufacturing

## > Institutes

Govt. Polytechnic, Jhajjar

# Chemical Engineering

## Introduction

Chemical Engineering programme equips the learners with the knowledge of creating something useful and new using chemicals or raw materials along with life sciences and physical sciences. This academic course's main goal is application of chemical sciences in various streams of industry where the conversions from raw materials to newer transformed products take place. Its curriculum covers applied chemistry, thermodynamics, chemical technology, heat transfer and much more giving a broader perspective to the field of students.

Chemical engineers profile is in the sphere of design, and development of chemical processes and equipment to oversee the operation and maintenance of industrial chemical, plastics, pharmaceutical, resource, pulp and paper, Petroleum Refinery, food processing plants and perform duties related to chemical quality, control, environmental

## > Career Opportunities

- After chemical engineering a person can become supervisor/ junior engineer/ field operator in various chemical industries like Oil & Natural Gas, Petrochemical, Fertilizer, Plastic and Paints, Rubber, cement, Automobiles, Pharmaceutical, food and beverages, agrochemical industries, Sugar etc.

## > Institutes

S.No.	Institute Name
1.	Deen Bandhu Sir Chhotu Ram Govt. Polytechnic, Sampla, District Rohtak
2.	Govt. Polytechnic, Sonipat
3.	Maharishi Kashyap Govt. Polytechnic, Jattal, District Panipat
4.	Seth Jai Parkash Polytechnic, Damla, District Yamunanagar(Aided)
5.	Deen Bandhu Chhotu Ram University of Science and Technology, Murthal, District Sonipat

# Chemical Engineering (Pulp & Paper

## Introduction

Chemical engineers profile is in the sphere of design, and development of chemical processes and equipment to oversee the operation and maintenance of industrial chemical, plastics, pharmaceutical, resource, pulp and paper, Petroleum Refinery, food processing plants and perform duties related to chemical quality, control, environmental protection and biochemical engineering.

Pulp and Paper Technology course enables students to understand the process of manufacturing paper. They get an overview of all the processes involved in it.

Knowledge of pulp and paper technology is applied to various fields. Publishing houses, newspaper agencies and many others employ people from this field in their companies. The industry produces paper and cellulose-based products using pulp and wood as raw material. The pulp is then set up to dry and lose its water content, and it is then made into sheets. Pulp and Paper Technology is not as simple as it is made to believe. Hence the students are given a strong foundation in chemical engineering and the basic sciences.

As the pulp and paper technology course is industry oriented, the students are given sufficient exposure. They are provided field works, and mill runs, on a regular basis. The course, pulp and paper technology also ensures that the students are up to date with the technology. In addition to this, they are made to do a lot of research and development on their own. The course comprises both theory and practical.

## > Career Opportunities

- The paper and the packaging industry together employ a large section of the population. A great number of employment opportunities come from these industries. Hence, there is a large scope for pulp and paper technology, both in India and outside. Japan, U.S, Finland, China, Germany are among the countries that employ the most in this field. Working in these countries will improve your chance of employment. Since technology is useful to other industries, the employment rates also will be higher.

## > Institutes

S.No.	Institute Name
1.	Seth Jai Parkash Polytechnic, Damla, District Yamunanagar

# Civil Engineering

## Introduction

Civil engineering is the oldest branch of engineering. It starts with the evolution of the human civilization. Civil engineering is an engineering discipline that involves the design, construction, and maintenance of the physical and natural environment, including public works like roads, dams, sewage systems, bridges, airports, railways, pipelines, and structural components of buildings. Civil engineers make use of the principles of civil engineering to design and construct the many structures we see around us. They are responsible for planning and overseeing different construction efforts and applying civil engineering principles to ensure that constructed structures are safe and sturdy. Without any doubt this branch has the most variety of jobs including private, Govt. as well as own works.

## › Career Opportunities

- As a Civil Engineer, you can take up career options in the diverse fields such as:
  - Junior engineer in various Government Departments in State & Central Government
  - Building control surveyor.
  - CAD technician
  - Consulting civil engineer.
  - Design engineer
  - Nuclear engineer.
  - Structural engineer.
  - Water engineer.
  - Rural and Urban Transport engineer.

## › Institutes

**34** No. of Government Polytechnics and **4** No. of Govt Engineering Colleges and **5** No. of Govt. University Departments are offering Civil Engineering Branch in Diploma and Degree Courses.

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Computer Engineering

## Introduction

It is about the study of principles and core concepts of computer science that includes the subjects such as programming languages, database, networking, operating system, and Multimedia applications mobile application developments, Internet of things & Artificial Intelligence etc.

The main objective of this course is to make the candidate strong in the current computer technologies and encourage them to bring up more innovative and inventory ideas in the field of automation that would be helpful in solving real-time problems in form of software, database, mobile applications, websites etc.

Students who study this course will gain knowledge of the basics of computer engineering techniques, coding skills, skills required for development of websites, databases,

## › Career Opportunities

- The candidates after successful completion of Course can look for job opportunities in public and private sector areas like Software Companies, Telecommunication companies, financial companies etc. They can take up their job positions like Jr. software developer, programmer, telecommunication Engineer, software engineer, network expert, system analyst, cloud architect, cyber security analyst among many others. They can also set up own IT business and work with clients.

## › Institutes

42 No. of Government Polytechnics and 4 No. of Govt Engineering Colleges and 7 No. of Govt. University Departments are offering Computer Engineering Branch in Diploma and Degree Courses.

Note: Guru Jambheshwar University of Science and Technology, Hisar and J.C. Bose University of Science and Technology, YMCA, Faridabad are also offering this degree course in Hindi language.

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Diploma in Business Management

## Introduction

Business management is the process of the planning, co-ordination and control of a business and to establish a value-creating organization. D.B.M. is a course related to the field of management education. The course imparts basic and essential management skills to the students. If candidates want to take first step towards management education, this course may prove helpful to them. The course content of D.B.M. is such that it train students and help them acquire key management and administration skills. This diploma course trains students in such a way that they become capable and qualified managers.

- The course focuses on the broad concepts of management and business as an entry level to the world of business and administration.
- It includes various aspects of management fundamentals in General Management, Finance, HR, Operations and Marketing Management.
- This course involves both the theoretical and practical perspective of Business Administration.
- Through the course, one will be able to accept the challenges of business and management and have an idea of how to transform that condition into an opportunity.
- This course provides managerial training to the candidate and aims to enhance their thinking and achievements through different exposure

## > Career Opportunities

- After completing the course, several employment areas are available that provide jobs to Business Administration students depending on their academic performance and skills learned. Some of the areas are Educational institutions, Government Institutions, Police/ Fire Management Department, Corporate House, Restaurants and so on.

## > Institutes

S.No.	Institute Name
1.	Govt. Polytechnic for Women, Faridabad
2.	Govt. Polytechnic, Mandi Adampur, District Hisar

# Diploma in Hotel Management

## Introduction

The Hotel Management industry is one of the fastest-growing sectors that uphold a variety of lucrative job opportunities. The field encompasses trained professionals who are equipped with skills to tackle the challenges of the Hotel industry in a tranquil manner. The best way to get started towards learning the insights of the Hotel Management industry is to seek a Diploma in Hotel Management.

Hotel management involves looking at the administrative tasks of a hotel or resort. It includes everything that is related to the hotel industry - marketing, hotel administration, catering management, accounts and housekeeping. Tourism and Hospitality are among one of the fastest-growing industries.

## Career Opportunities

- One can also join this course because of its large scope in other countries also. Students wish to do this course to make their career in abroad countries. With the increasing globalization, the hotel chain is also increasing widely.
- In hotel management and catering field, one can achieve a long term career in life. It is very demanding profession in abroad. Through this course, you can join government and non-government sectors.

## › Institutes

Ganpati Institute of Hotel Management, Village Marwa Kalan,  
Bilaspur Sadhaura Road, District Yamunanagar

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Electrical Engineering

## Introduction

It is a skill enable programme where the students actually learn by doing and progress from basics to higher order skills like installation, maintenance and troubleshooting of electrical equipment. Electrical Engineering holders have access to a wide array of subjects including Power System, Electrical Machines, Electrical & Electronics Engineering Material, Electrical Measurements and Measuring Instruments, Fundamentals of Electrical Electronics Engineering, Industrial electronics and control of drives, Installation and maintenance of electrical equipment, Utilization Electrical Energy, EDM, Electrical Engineering Design and Drawing and Electrical Energy conservation & management, etc.

An electrical engineer learns everything from the beginning, right from the small circuits to large power motors. Electrical engineering is useful in any sector serving technological services.

## › Career Opportunities

- Electrical Engineering has a wide career opportunity in sectors like Electronics, Power Corporation, IT consultants or Manager, Aviation Technology, Communication Technology, Radio Engineers, Electromagnet Engineers, Aviation Power Supply, etc. Some of the major hiring companies in India are TCS, ONGC, MTNL, BSNL, BHEL (Bharat Heavy Electricals Limited). Apart from private jobs, the scope for Government jobs is also higher for people from an engineering background.
- Electrical engineers provide services like equipment building services, repairing services, power supplying services, etc. Also, companies based on nuclear or atomic technologies, thermal powers, technological consultancies, etc. hire people from the electrical engineering background.

## › Institutes

31 No. of Govt Polytechnics and 3 No. of Govt Engineering Colleges and 4 No. of Govt. University Departments are offering Electrical Engineering Branch in Diploma and Degree Courses.

Note: Deen Bandhu Chhotu Ram University of Science and Technology, Murthal, District Sonapat is also offering this degree course in Hindi language.

# Electrical & Electronics Engineering

## Introduction

It is a field of engineering that generally deals with the study and application of electricity, electronics and electromagnetism. The field first became an identifiable occupation in the late nineteenth century after the commercialization of the electric telegraph and electrical power supply. It covers a range of subtopics including power, electronics, control systems, signal processing and telecommunications. There are equally good opportunities for jobs in the electrical engineering industry and higher education.

This program covers two separate fields:

- Electrical deals with the various ways to effectively and efficiently use of electricity, its installation and maintenance
- Electronics deals with using and controlling electrical power to interpret an instruction and perform a desired task.

## › Career Opportunities

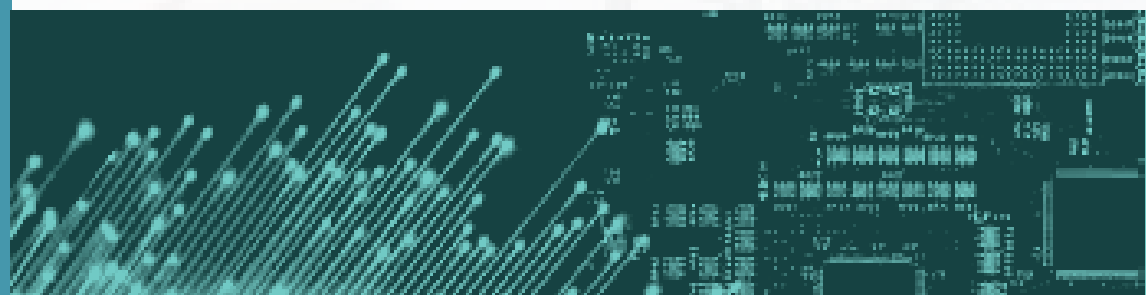

- This Program builds relevant skills & knowledge in students to perform many roles as stated below:
  - Application Engineer
  - Automation Engineer
  - Electrical/Electronic Maintenance Engineer
  - Electrical Cad Engineer
  - Operation Manager
  - Electrical Product Designer

The programme also enables students to start their own entrepreneur ventures.

## › Institutes

Mewat Engineering College, Moosa Palla, Tehsil Nuh,  
District Mewat

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Electrical and Instrumentation Engineering

## Introduction

Electrical and Instrumentation Engineering refers to the discipline which deals with design of devices to measure physical quantities such as temperature, pressure, flow etc. Electrical Engineering basically deals with the study and application of electricity, electromagnetism, and electronics. Instrumentation engineering is the engineering specialization focused on the principle and operation of measuring instruments that are used in design and configuration of automated systems in electrical and pneumatic domains etc. The students can typically work for industries with automated processes, like the chemical or manufacturing plants. They work with the goal of improving system productivity, safety, reliability, optimization and stability etc. It deals with the design of devices to measure physical quantities such as temperature, pressure, flow etc. The design of such instrumentation requires a good understanding of physics that often extends beyond electromagnetic theories. Instrumentation is often dealt as the sensors of larger electrical systems.

## › Career Opportunities

- The Placement Opportunities include both private and public sector organizations of electricity boards and power plants, hydroelectricity sectors, Biomedical Electronics, petroleum, aircraft and automobile industry, steel and chemical plants, etc

## › Institutes

Department of Instrumentation Technology, Kurukshetra University, Kurukshetra

# Electronics and Communication Engineering

## Introduction

The focus in this discipline is on understanding electronic networks and devices, electric magnetic fields, computer fundamentals, communication and control systems. Electronics and Communication Engineering uses the scientific knowledge of the behaviour and effects of electronics to develop components, devices, systems and equipment. It deals with recent trends in communication technology via wire/wireless networks, circuit designs and microcontrollers.

Electronics and Communication Engineering is growing day by day in every country. Despite of huge demand of electronics items/gadgets, India is still lagging behind in the field of production/ manufacturing/ designing of electronics devices/ circuits. We are still dependent on import of such appliances/ devices from other countries. Hence, the course offers a great scope in contributing to nation's economy.

## › Career Opportunities

- A student after attaining a degree or diploma in ECE can:
  - Be selected as Engineer/ Jr. Engineer in company/ industry in India or abroad
  - Be an entrepreneur
  - Set up his/ her own unit
  - Further pursue study for higher degree in India or abroad
  - Join defence in technical field
  - Be selected in Govt./ Public sectors such as BSNL, DRDO, ISRO etc.
  - Be a researcher

## › Institutes

27 No. of Government Polytechnics and 4 No. of Govt Engineering Colleges and 7 No. of Govt. University Departments are offering Civil Engineering Branch in Diploma and Degree Courses.

Note: Guru Jambheshwar University of Science and Technology, Hisar is also offering this degree course in Hindi language.

# Fashion Design

## Introduction

Fashion Designing is a skill-based industry-oriented course where everything from the specifics of design and development to start and sustaining a brand is discussed extensively. Industriousness and creativity are believed to be the blood of the fashion industry. Fashion ideas, culture study, patterns, garment design and related topics form the core part of the course. Furthermore, Marketing, Retailing, Communication, Product Development, Social Media are also dealt with. This course ingrains all the required knowledge for an individual to be adept in the Fashion Industry. Since fashion is a subject of taste, governed by subjectivity and innovation, it is more about teaching the students how to explore their own creativity instead of following theoretical knowledge.

## › Career Opportunities

- Students after doing Fashion Design course can become a Fashion Illustrator, Fashion Forecaster, Quality Assurance Manager, Fashion lawyer, Freelancer, Fashion columnist, Fashion Designer, Production Pattern Maker, Textile designer, Fashion entrepreneur, Fashion coordinator, and stylist, etc.
- Students can start their own brand in India and abroad.

2.	Govt. Polytechnic, Hisar
3.	Raja Jait Singh Govt. Polytechnic, Neemka, Tigaon Road, District Faridabad

# Fashion Designing & Garment Technology

## Introduction

Fashion Design and Garment technology is about the fundamentals of fashion design and production of garments. Fashion Design as profession includes the entire process of designing and producing fashion apparels from the fibre and yarn stage to the finished product. The papers of this course will give an overview of fashion design and elaborate on different aspects like elements of design, history of fashion, fabrics, and understanding of the body, pattern development and garment construction.

Garment Technology, is a discipline where you learn about the different technical aspects of production of garments. A person specialized in Garment Technology looks after the technical aspect of creation of the garments in addition to acting as a consultant to fashion designers and marketing personnel.

## › Career Opportunities

- As beginner assistants to designers of apparel
- As coordinators for sampling houses of apparel
- As liaison officers between production and merchandising departments of any export/ retail set-up in the field of apparel
- As assistants in product development department
- The Programme will helps students setup boutiques and small scale manufacturing setups.

## › Institutes

MKM College of Polytechnic for Girls, Near Bus Stand,  
Hodal, District Palwal

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Fashion Technology

## Introduction

Fashion Technology is a lucrative job of modern society as the present generation is very fashion conscious. It prepares the students for the booming industry of Fashion Technology, Fashion Technology is mainly concerned with art of crafting cloth materials that are both pleasing to eyes and attractive to wear, Students are introduced to core garment manufacturing techniques, technologies and applications. There is a huge demand for people who have practical knowledge of fashion technology and design. Fashion technology is such a course that not only helps the student to get acquainted with this topic but also obtain knowledge on the latest technology in the field.

Course is designed in a manner that blends theoretical and practical knowledge/expertise to students. It focuses on fabric design, design process management, concept management, printing, quality control, textile science and colour mixing.

## › Career Opportunities

- There are many companies in India, engaged in the making of readymade garments, with hundreds of job opportunities for both men and women, which many people take up because of excellent income yields. Readymade garments require high-level training and honing of one's skills.

**The scope of Fashion Technology is broad and boundless.**

It includes design, production, marketing and distribution of garments, footwear, leather goods, textiles and jewellery. Students can also start their own entrepreneur ventures.

4.	Faculty of Engg. and Technology, Bhagat Phool Singh Mahila Vishwavidyalaya, Khanpur Kalan, Gohana, District Sonipat

# Finance Account & Auditing

## Introduction

Diploma in Accounting and Finance involves the study of everything related to financial systems and accounting processes.

- It is for those students who are interested in studying accounts and finance.
- This course aims at imparting practical and theoretical knowledge in the particular field of study.
- The course lays down the base-level foundation of subjects, which are related to banking and finance and helps them to get a good grasp of this subject in general.
- The main goal of this course is to make the students employable for different job positions shortly.
- The Diploma in Accounting and Finance course makes the student aware of various accounting and financial management policies.
- It helps them to learn how to use accounting software in business and the usage of different financial services.

## › Career Opportunities

- A student earning a degree in the Diploma of Accounting and Finance course can work in various market research firms, public accounting firms, corporations, consultancy services, research organisations, accountancy firms, banking organisations, financial firms etc. after the completion of the entire course.
- He/she can work as book-keeping clerk, billing clerk, tax accountant, financial advisors, financial assistant & accountant, financial consultant, Chief Financial Officer, Certified Public Accountant, finance managers, etc.
- With this degree, he/she can score government and private sector jobs in companies like market research firms, public accounting firms, corporations, consultancy services, research organisations, accountancy firms, etc

## › Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Hisar
2.	Govt. Polytechnic, Sonipat
3.	Kalpana Chawla Govt. Polytechnic for Women, Ambala City

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Food Technology

## Introduction

The food industry is very competitive and is constantly changing to meet consumer demands and use technological innovations. As the world population increases, food technologists are challenged with developing innovative applications in biotechnology and processing of food, as well as understanding the link between food, nutrition and health. 'Food Technology' empowers the students with knowledge and skills required for quality control and research & development in food industries manufacturing processed foods.

Food Technology study has grown in popularity in recent years, and Food Technology is a programme that teaches students about all of the relevant topics. Microbiology, Enzyme Technology, Food Hygiene and Sanitation, Nutrition and Health, Food Processing, Food Plant Layout & Design, Laws, Quality Assurance, and Unit Operations in Food Technology are some of the topics covered in this curriculum. The course helps to train the students for entrepreneurship in the various specialized areas of food processing viz fruits & vegetables, dairy, poultry, meat, fish, cereals and pulses.

## › Career Opportunities

- After Completion of the course in Food technology, any student can do jobs are Hygiene Executive, Home Economist, Analyst, Technical Marketing Professional, Small Scale Entrepreneur, product development executive, etc.
  - Food Technologist
  - Food Processor
  - Food Quality Assurance Manager
  - Production Supervisor

## › Institutes

S.No.	Institute Name
1.	Ch. Bansi Lal Govt. Polytechnic, Bhiwani
2.	Govt. Polytechnic, Mandi Adampur, District Hisar
3.	Guru Jambheshwar University of Science and Technology, Hisar

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Information Technology

## Introduction

In this course, students have to study subjects related to computer and information technology, after which they are able to work in the fast-growing, computer and IT sector. This course covers topics related to computer and IT from very basic, so even if a student has not done any computer-related studies till class 10th, still that student can join this course, and he/she will understand this course easily and will not face any problem.

## › Career Opportunities

- Students have many Career opportunities and option to go for higher education. After doing this course, students can get jobs in different profiles in companies of computer and IT sector. There are also some government job opportunities. Students can get work in the role of Programmer, Web Developer, Junior Software Engineer, Graphic Designer, Software Tester, Data Analyst, IT Officer, IT Security Officer etc.

## › Institutes

S.No.	Institute Name
1.	Faculty of Engg. and Technology, Bhagat Phool Singh Mahila Vishwavidyalaya, Khanpur Kalan, Gohana, District Sonapat
2.	Guru Jambheshwar University of Science and Technology, Hisar
3.	J.C. Bose University of Science and Technology, YMCA, Faridabad

Guru Jambheshwar University of Science and Technology, Hisar is also offering this degree course in Hindi language.

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Instrumentation & Control Engineering

## Introduction

The study of sensors, measurement of process variables, controlling of the variables, automatic Calibration of instruments, Knowledge of biomedical, analytical instruments and electrical and electronics instruments take place in Instrumentation and control Engg branch.

Instrumentation is all about measuring and controlling process variables that come into play during manufacture/production processes. In case of most manufacturing plants, variables like force, temperature, pressure etc play a crucial role. Such variables have to be controlled and measure. Control Engineering focuses on design, development and maintenance of control systems. This discipline focuses on using control theory to design systems that behaves and functions in a planned way. Both these disciplines combine to form the field of IC! In short, it focuses on managing and measurement of variables and developing control systems and automatic systems.

## › Career Opportunities

- IC Engineers are trained to develop, install, maintain and monitor control system and processes. Most manufacturing plants and units, across various sectors, use such systems and machinery. It is safe to say that trained IC professionals are required by such plants for the above mentioned tasks.
- Diverse job opportunities are available in both Government and Private sector. When it comes to Government sector, enterprises like BHEL, ONCL, OIL, Indian Railways, DRDO, PWD etc are known to recruit IC professionals.

## › Institutes

S.No.	Institute Name
1.	BKN Govt. Polytechnic, Narnaul, District Mahendergarh
2.	Ch. Bansi Lal Govt. Polytechnic, Bhiwani
3.	Govt. Polytechnic, Dhamlawas, District Rewari
4.	Govt. Polytechnic, Hisar
5.	Govt. Polytechnic, Sonipat
6.	Govt. Polytechnic, Umri, District Kurukshetra
7.	Guru Brahma Nand Ji Govt. Polytechnic, Nilokheri, District Karnal

# Library & Information Science

## Introduction

Library science is considered as the mother of all science and is a fountain of knowledge. Its significance has increased tremendously with the introduction of computerized systems in all spheres of Information Technology. Some of the important subjects which are taught to the students are Cataloguing, Classification theory and Practice, Computer Programming theory, Information Storage and Retrieval Bibliography and Documentations and Computer Applications.

## › Career Opportunities

- After completion of the LIS course, students are able to find a suitable career. The students can find a job in both the private and public sectors. It also offers a job in the field of teaching. Some job roles offered to LIS are:
  - Teacher
  - Private tutor
  - Librarian
  - Author
  - Entrepreneur

## › Institutes

S.No.	Institute Name
1.	BPS Mahila Polytechnic, Kanya Gurukul, Khanpur, District Sonipat

3.	Vaish Technical Institute, Rohtak

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Mechanical Engineering

## Introduction

Mechanical engineering deals with application of the principles of mechanics and energy to design machines and devices right from automobiles, trucks, airplanes to trains tractors, fax machines or even power plants. Robotic inspection systems, Cryogenic technology, Laser material processing are also some new emerging areas of study.

## › Career Opportunities

- There is wide scope of job avenues for Mechanical Engineers in India. Few job avenues are highlighted below:
  - **Automotive industry** – Designs, manufactures, distributes and markets motor vehicles
  - **Defence industry** – Provides equipment, support and services for the armed forces and national security
  - **Fast moving consumer goods industry** – Manufactures products such as household cleaning items, personal hygiene goods and convenience foods
  - **Materials and metals industry** – Activities include developing new materials and manufacturing components or end products
  - **Rail industry** – Designs, constructs, manages and maintains rail system components from trains and tracks to electrical power systems and train control systems

## › Institutes

39 No. of Government Polytechnics and 4 No. of Govt Engineering Colleges and 6 No. of Govt. University Departments are offering Mechanical Engineering Branch in Diploma and Degree Courses.

Note: Deen Bandhu Chhotu Ram University of Science and Technology, Murthal, District Sonapat, Guru Jambheshwar University of Science and Technology, Hisar and J.C. Bose University of Science and Technology, YMCA, Faridabad are also offering this degree course in Hindi language.

# Mechatronic Engineering

## Introduction

Mechatronics is a combination of the terms 'mechanical' ("mecha" for mechanisms, i.e., machines that 'move') and 'electronics'. The word reflects the basic nature of this field, to integrate electrical and mechanical systems in a single device.

It is a multidisciplinary field of engineering that includes a combination of mechanical engineering, robotics, electronics, computer engineering, telecommunications engineering, systems engineering, and control engineering. Mechatronics focuses on designing, manufacturing and maintaining products that have both mechanical and electronic components.

Mechatronics combines areas of engineering to allow the design, development, and application of "smart devices" in an integrated, cross-disciplinary manner (covering electronics, mechanical systems). Mechatronics is the science of intelligent systems where students learn to design, develop, and test smart systems/machines.

The course is designed in accordance with the industrial advancement taking place in the country. The course aims to make the students capable of evolving industry through the advanced and in-depth study of mechanics & electronics. The curriculum also involves theory as well as practical lectures to make it an overall enriching and enjoyable experience for the young minds

## › Career Opportunities

- Mechatronics Engineers can take up jobs roles like Supervisor, Researcher, Robotic Technicians, Robotic Test Engineer, Robotic System Engineer and some of the main employers being Vizkon Technology, G.E. Renewable energy, SMR Automotive Systems etc.

## › Institutes

Asia Pacific Institute of Information Technology, Panipat

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Medical Electronics

## Introduction

Medical Electronics Engineering is the only branch which integrates engineering and medicines. Electronics has all along made valuable contribution in the field of medicine. The quality and availability of health care are becoming increasingly dependent on radically new diagnostic, monitoring, and prosthetic instruments provided by electronics some examples being from a simple thermometer, blood pressure measurement instrument, stethoscope to the high end MRI machine. This branch deals with the latest healthcare technology such as design of hardware and software, Implementation and troubleshooting. Medical Electronics Engineering is finding importance due to evolution of high innovative technology base equipment and machinery being extensively used in healthcare. Various new medical devices and software are entering the market.

The miniaturization of electronics devices and integration technologies is leading to development of new electronic medical devices for measurement of physiological variables for use in diagnostics, therapy and monitoring to improve the well-being of the population. Thus, the impact of electronics on health care is now a widely accepted fact. Health care may indeed present the most promising opportunity to improve the quality of life in our society through electronics. In the coming years, there will be greater demand for medical electronics in the country with the Government programmes like National Rural Health Mission which aims to provide technology at grassroots level.

## › Career Opportunities

- Biomedical Engineer
- Maintenance and Service Engineer
- Application Specialist
- Medical Software Developer
- Business Development Engineer

## › Institutes

Govt. Polytechnic, Hisar

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Medical Laboratory Technology

## Introduction

Medical Laboratory Technology is an allied health profession which is concerned with the diagnosis and prevention of disease through the use of clinical laboratory investigations and findings. The well-organized and balanced training program in laboratory medicine, allows students to learn, detect and diagnose diseases. Medical Laboratory Technician (MLT) health professional is skilled in conducting laboratory tests and responsible for the initiation of the treatment process by observing symptoms and subsequently aid in diagnosing, treating, and preventing disease. They form an integral part of the healthcare industry. Medical laboratory technicians/technologists play a pivotal role in the comprehensive system by collecting, sampling, testing, reporting, and documenting medical investigations. They deal with biochemical, pathological, and microscopic examination of the body's cells, tissues, and fluids.

## › Career Opportunities

- After successful completion of the program a student will be capable of holding assignments in hospital and health-care institutions, research laboratories and diagnostic centers
- Successful candidate can set-up their own establishments
- Students with an instinct to learn can do higher studies in specialized field of study and can progress as scientists and can even enjoy faculty positions in academic institutions
- Students can get placed as Scientific Officer or Quality Assurance Officer

## › Institutes

17 No. of Government Polytechnics are offering Medical Laboratory Technology Branch in Diploma Courses.

# Office Management & Computer Application

## Introduction

In this course, the subjects taught to the students are Accountancy, Economics, Business Statistics, Office Management, Office Organisation, Awareness of Computer, Data Processing, Correspondence, Short-hand and typing. The course is being restructured as Diploma in Modern Office Management.

## › Career Opportunities

- The course is job-oriented and has vast potentialities for employment as:
  - Assistant Accountant
  - Receptionist
  - Steno- Typist
  - Assistant in Business
  - Houses/Organisation
  - Banking Services
  - Maintenance of Accounts
  - Instructor in ITI

## › Institutes

S.No.	Institute Name
1.	BPS Mahila Polytechnic, Kanya Gurukul, Khanpur, District Sonipat (Aided)
2.	Govt. Polytechnic for Women, Sirsa
3.	Govt. Polytechnic, Uttawar, District Palwal
4.	Kalpana Chawla Govt. Polytechnic for Women, Ambala City
5.	Vaish Technical Institute, Rohtak(Aided)

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Pharmacy

## Introduction

Pharmacy is the study of drugs which includes instructions on use, selection, composition, effects and side effects of drugs. It also includes development of new drugs, ascertaining of quality standards, dispensing of drugs and improvement of existing drugs. Pharmacy is the branch of health sciences that deals with the preparation and dispensing of drugs. Its aim is to ensure the safe and effective use of pharmaceutical drugs.

### › Career Opportunities

- Numerous jobs are available for pharmacists in government as well as private organizations. After completing your studies, you can easily find jobs in pharmaceutical industries, government departments, colleges and universities, hospitals, investigation and research institute etc.

Pharmacists can practice in community pharmacies, hospitals, clinics, extended care facilities, psychiatric hospitals, and regulatory agencies. Sales & Marketing job sector also hires maximum number of pharmacy graduates.

One can also work in retail stores of medicines. After registering with the state Pharmacy Council, you can open chemist/drug shop and sell medicines as per doctors prescription.

### › Institutes

6 No. of Government Polytechnics and 8 No. of Government University Departments are offering Pharmacy Branch in Diploma & Degree Courses.

For more details, please refer Prospectus available at [hstes.org.in](http://hstes.org.in)

# Plastic Engineering

## Introduction

Plastics engineering is a branch of engineering that deals with design, processing and manufacturing of all types of plastic products. Plastic Technology is a highly demanded course nowadays due to the increased use of plastic products. The course is offered through various Plastic Technology colleges in the country. Upon completion of the course, the candidate acquires the aptitude to select the right type of material to make a particular plastic product. The participants of the course are exposed to different mechanisms used in the preparation and characterization of plastic material. Students learn and become professionals about the maximum usage of variety of machinery, and make applicable in the production process.

Plastic Technology offers some essential benefits to the participants. The course study helps the candidate to get into a lucrative profession within a short period. Due to the rapid growth of the plastic and polymer industry, skilled professionals in plastic technology are highly demanded across sectors.

## > Career Opportunities

- The students of plastic engineering have job opportunities in a number of sectors such as:-
  - Plastic Processing Industries such as Packaging, Household Articles, Wire and Cable Coating , Conduit Pipes etc,
  - Polymeric Composites, Elastomers and Sealants
  - Polymer Manufacturing Industry
  - Industries manufacturing Electrical Components & Accessories
  - Chemical Industry, Automobile Industry, Textile Industry, Foot-wear Industry, Furniture Making Units, Toy Manufacturing, Medical Industry, Sports Goods Industry

## > Institutes

S.No.	Institute Name
1.	Chhotu Ram Polytechnic, Rohtak
2.	Govt. Polytechnic, Ambala City
3.	Central Institute of Plastics Engineering and Technology, Murthal, Sonipat

# Textile Design

## Introduction

Textile Design is the art of creating cloth or fabric that is adorned or printed upon. The course of Textile Design shall train the students for a wide range of careers in the textile mills and export houses, at design studios, mills, buying houses as design or fabric managers and with fashion designers.

## › Career Opportunities

- After successful completion of the course, one may either go for jobs in the private or public sector. In the government sector, one may look for opportunities in the Indian Ministry of Textiles.
- Some of the top job profiles that may be offered to candidates are as follows:
  - Colour and Style Specialist
  - Colour and Design Consultant
  - Textile and Surface Developer
  - Colour and Trend Forecaster
  - Strategic Intervener
  - Print and Pattern Designer
  - Textile Illustrator
  - Innovative Design Consultant
  - Manager Trend & Forecast

## › Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Hisar
2.	Rajiv Gandhi Govt. Polytechnic, Narwana, District Jind

# Textile Processing

## Introduction

Textile processing is considered as one of the major industry of India. The course includes 3 main phases- conversion of Fiber to Yarn, Then yarn to Fabric and last is Textile. Then the end material is fabricated into clothes. Candidates learn about all the details related to processes available for spinning, different fabric forming stages, complexities of coloration, etc.

The course teaches about scientific application of engineering principles in designing, controlling of various aspects of fiber, apparel processes, products, textile and involved machinery.

It also consists of the application of scientific and engineering principles to the design and control of all aspects of fibre, textile, and apparel processes, products, and machinery. After this course one will be able to judge the fabric quality and the machinery best suited for it. There is a large scope of a person with textile knowledge in various departments of textile companies and plants like in research and development, technical sales, process engineering, Production control, corporate management, quality control and many more.

## › Career Opportunities

- Supervisor/ in charge in Bleaching, Dyeing, Printing, Finishing departments in Textile Mills.
- Technical Supervisor in Laboratory/Research and Development sections of textile chemical processing units)
- Technical Supervisor in textile committees, textile corporations, small scale industry organization, and handloom industry.
- Technical Representatives of manufacturers for Dyestuffs/textile auxiliaries.
- Technical Supervisor/Quality In charge in textile process lab.
- An entrepreneur of a textile processing unit/ dyestuffs industry.
- Teaching in a technical institute.

## › Institutes

Govt. Polytechnic, Hisar

# Textile Technology

## Introduction

Textile Technology is a booming field in current time. The course deals with the application of scientific and engineering principles to the design and control of all aspects of fibre, textile, and apparel processes, products, and machinery. It is increasing the demand due to our fast changing life style.

The course also teaches to judge the fabric, its quality and its demand, it also includes study of machines and their mechanism involved in textile designing.

## › Career Opportunities

- After successful completion of the above courses, candidates can opt for direct employment in manufacturing industries: Spinning, Weaving, Knitting, chemical Processing, Garmenting, Production Planning, Product Development, Merchandising, Sourcing, Quality audits, etc.

## › Institutes

S.No.	Institute Name
1.	Govt. Polytechnic, Hisar
2.	Rajiv Gandhi Govt. Polytechnic, Narwana, District Jind
3.	Maharishi Kashyap Govt. Polytechnic, Jattal, District Panipat
4.	Panipat Institute of Engg. and Technology, Samalkha, District Panipat
5.	The Technological Institute of Textile and Sciences, Birla Colony, Bhiwani
